Hi John,

I modified the difference map and attached.

Best,

Haile

Ho John,

I have attached the PDF format. I added a polygon river layer and I think it looks fine. Please let me know if you need additional modifications.

Best,

Haile

Hi Haile,

The art department staffer, Paul Soderlind, said he is happy to try generating cover art. He has some ideas. But if you think of something particularly inspiring, let me know and I can pass it on.

Thanks,

John

Good morning John,

I am working on the PDF format and I will send it soon. The cover-art is good Idea and I will try to see the options to do it from ArcGIS. Contacting the graphics department is also another option and I hope they will update you soon.

Let me know.

Haile

Hi Haile,

Please hold off on the cover-art request I sent you yesterday for now. I am exploring with the graphics people the possibility of them trying this.

But everyone, please let me know if you are inspired with an idea.

And I still need the map in a standalone PDF format.

Thanks,
John

Subject: Need figure in stand-alone PDF format for resubmission

Hi Haile,

For our Science resubmission, we need to submit manuscript figures as separate PDF, TIFF or EPS files. Unless it is a problem for you, I prefer PDF. Would you please send me your CIPFPECA map that I copy below as a stand-alone in PDF format? (The editor told me to move the {{C9+C11}-(C10+C12)} to the Supplementary Material, so we don't need this in stand-alone PDF.)

Also, I have a second ambitious request of you. So far as I can tell, Science does not ask for potential cover art, but if not too hard for you, how about if we try a cover-art submission? If you are up for it, how about trying this for cover art (I am open to other ideas!):

Ex. 5 Deliberative Process (DP)

What do you think? Can you try my second request without too much trouble??? And please send the map as soon as you have it in a stand-alone PDF.

Thanks,
John

Map needed in high-quality PDF:
